An Introduction to Women, Addiction, and Recovery

Women Connected: Families and Relationships in Women's Substance Use and Recovery

Family and relationships play an important role in women's lives, including in substance use, treatment, and recovery supports. This webinar offers service providers specific strategies to address women's need for connection with others, especially children and family. Participants will gain knowledge and resources to help engage women in substance use treatment and recovery, including an array of family-based interventions. The session will discuss clinical interventions and recovery supports related to relationships with children, partners and families, and interpersonal dynamics. Tools and techniques for establishing therapeutic alliance, involving family and building a community of support will be discussed
